## EDUCATION

### University of Rochester

Master of Data Science | GPA 3.43 / 4.0

Rochester, New York

Aug. 2023 – Dec. 2024(EGD)

### Pusan National University

Bachelor of Arts in International Business and Economics | GPA 3.73 / 4.0

Busan, South Korea

Mar. 2011 – Aug. 2018

## PROFESSIONAL EXPERIENCE

### VOESH New York

Administrative Accounting Specialist, Admin/Accounting

South Plainfield, New Jersey

Oct. 2018 – Mar. 2023

- Spearheaded the development of the company's sales analytics framework, conducting advanced statistical analysis on over 10,000+ clients to forecast trends and predict customer behavior. Utilized Oracle DB for robust data management, generating insightful weekly reports that guided strategic decision-making and drove sales strategies across 60+ in-house and outsourced sales representatives.
- Led the design and implementation of new CRM and ERP systems, focusing on scalability & data integration actively collaborating with cross-functional teams to engineer databases that improved operational efficiency and data quality. Successfully managed the transition, refining the company's dataset by 70%, which enhanced decision-making processes and prepared the organization for future adoption of ML technologies.

### EASTERN AMERICAN CDC ( Non-Profit Federal Community Bank)

Credit Analyst Intern, Credit Assessment

Englewood, New Jersey

May. 2018 – Oct. 2018

- Conducted comprehensive analysis and processing of SBA 504 loan and credit applications for over 100 community business owners, meticulously assessing financial information and performing in-depth risk analysis to determine credit risk levels and support informed decision-making and enhancing the bank's financial stability.

## PROJECTS & INTERESTS

- **LLM-Based Real-Time Translation System with Kafka and MLOps Automation (On-going)** : Designing a scalable, real-time multilingual translation system utilizing Kafka for real-time message streaming and Kubernetes for dynamic scaling. Deployed Hugging Face translation models, ensuring high availability and low-latency processing. Integrating MLOps tools, including Prometheus and Grafana, for real-time performance monitoring and Weights & Biases (W&B) for drift detection and automated retraining.
- **Real-Time Tweet Sentiment Analysis Pipeline** : Designed and implemented using PySpark, Databricks, and AWS, enhancing data flow efficiency from raw to refined stages, leveraging cloud services for robust data hosting and management, which supported dynamic data analysis and decision-making through applied MLOps techniques.
- **Data Mining: Cross-Cultural NLP Analysis of Luxury Hotel Reviews in Europe- LDA Topic Modeling** : Led a pioneering NLP project analyzing over 515,000 luxury hotel reviews, leveraging Python and advanced Scikit-learn to uncover intricate customer behavior patterns across diverse global regions.
- **Multidimensional Analysis of Video Game Sales and Global Market Trends**: Directed a comprehensive data analysis project using RStudio, scrutinizing over 16,000 video game titles with advanced statistical methods
- **ClinicOps: Integrated DBMS Solution**: Engineered a sophisticated DBMS for a clinical setting, developing a high-performance platform with PHP & SQL. The project was acclaimed a top project for superior technical prowess.
- **Tri-States Area Quality of Life Analysis**: Conducted a detailed statistical analysis of quality of life indicators across NY-NJ-CT, employing Tableau for advanced data visualization. Uncovered various socio-economic factors.

## SKILLS

- **Big Data Technologies & Database**: Apache Spark, AWS, DataBricks, SQL
- **Machine Learning, Deep Learning & MLOps**: NLTK, NLP, TensorFlow, Keras, PyTorch, Scikit-Learn, RandomForest, SVM, Kafka, Kubernetes, Prometheus, Grafanas
